Konect Electrical Services Ltd is committed to achieving Net Zero emissions by 2050.

|                                                                |                             |
|----------------------------------------------------------------|-----------------------------|
| <b>Baseline Year: 2025</b>                                     |                             |
| Additional Details Relating to Baseline Emissions Calculations |                             |
| Baseline Year Emissions                                        | 38.45                       |
| <b>EMISSIONS</b>                                               |                             |
| Scope 1                                                        | 14.11 tCO <sup>2</sup> / km |
| Scope 2                                                        | 0.43 tCO <sup>2</sup> / Kwh |
| Scope 3 (included sources)                                     | 23.91 tCO <sup>2</sup> / km |
| <b>Total Emissions</b>                                         | <b>38.45</b>                |

## Current Emissions Reporting

|                             |                             |
|-----------------------------|-----------------------------|
| <b>Reporting Year: 2026</b> |                             |
| EMISSIONS                   | 40.03                       |
| Scope 1                     | 15.81 tCO <sup>2</sup> / km |
| Scope 2                     | 0.38 tCO <sup>2</sup> / Kwh |
| Scope 3                     | 23.84 tCO <sup>2</sup> / km |
| <b>Total Emissions</b>      | <b>40.03</b>                |

### Completed Carbon Reduction Initiatives

The following environmental management measures and projects have been completed and implemented:

- All company vans have been replaced from Euro 5 to euro 6 standard
- All office lighting is LED with motion sensors
- EV charging is available to all staff on office premises
- All A4 paper purchased is recycled paper
- Company policy states all printing should be double-sided
- Office electric heating has been replaced by and air conditioning system
- We are ISO 14001 accredited and have environmental objectives and target which have been established across all functions of the business

### In the future we hope to implement further measures such as:

- Hybrid or fully electric company vehicles
- Paperless office in areas where practicable
- Further waste reduction
- Potential move to green energy supplier if practicable
- Paperless system to be separated waste from general waste for recycling purposes
